COURSEWORK

PG CERTIFICATE
Cross-platform Mobile development
IOS Application Development
Android Application Development
Mobile Web Development
Firebase for Mobile Platforms
Database Management
UI/UX
Web Designing

SKILLS

PROGRAMMING
Advanced:
• Angular • HTML • CSS
• React Native • Node Js • Ionic
• Javascript • Java
• Git • APIs • SQLite

Familiar:
• Swift • Kotlin • React Js
• Spring Boot • Firebase • Figma

UI LIBRARIES
• Prime NG • Material UI
• Bootstrap • Tailwind CSS

CERTIFICATION

Angular Basic HackerRank

EXPERIENCE

TATA CONSULTANCY SERVICES (TCS) | System Engineer
March 2023 – Dec 2023 | Kochi, India
- **Supported** a major client by managing multiple marketing campaigns, ensuring seamless execution by resolving workflow failures, leading to an **increase in campaign success rates**.
- **Utilized Adobe Campaign Classic, Helix, and AppDynamics** to raise tickets and optimize campaign performance, resulting in faster issue resolution and reduced downtime during **peak hours**.

XCUBATED BUSINESS SOLUTIONS (XBS) | Software Associate
July 2021 – February 2023 | Remote | Trivandrum, India
- **Involved in front-end development** for Angular, React.js, and Ionic-based projects, driving delivery of multiple **web and mobile application** phases within tight **deadline constraints**.
- **Integrated RESTful APIs** and designed user-friendly interfaces, resulting in an **effective increase in user satisfaction** in the deployed applications.
- **Put effort into back-end development** for Node.js projects, enhancing back-end performance and reducing load times by **15%**.
- **Collaborated across teams** to address and close defects, reducing over **90%** bugs in production.

XCUBATED BUSINESS SOLUTIONS (XBS) | Intern
April 2021 – June 2021 | Remote | Trivandrum, India
- **Created responsive, user-friendly web designs** using HTML, CSS, and UI libraries like Bootstrap, resulting in **enhanced user experience**.
- **Contributed to manual testing** for multiple projects, identifying and reporting over **30 defects**, ensuring **zero critical bugs** post-deployment.

PROJECTS

CHAT APP | Github
React Native | Firebase | Javascript
• **Developed** a chat application to replicate core functionalities of WhatsApp using **Firebase** for **real-time data synchronization** enabling seamless communication between registered users.

WEATHER APP | Github
Swift
• **Designed and developed** a basic weather application using **Swift**, integrating a **weather API** to provide real-time weather data for users.
